As editor who will publish an attack upon a fellow member of the craft over an assumed name is about as low a mortal as God allows to breathe.

A MAN who will openly violate the statute and draw \$300 from the territorial treasury and then brag about it is not qualified to mould public opinion in Arizona.

A FELLOW whose cowardly nature and low character entitle him to no respect in the community in which he lives is not the man whose mouthings go for aught except among his kind. This is straight goods,

THE editor of the Stockman is hard up for material with which to fill his columns when he prints the contributions of men who gain a livelihood by soliciting victims for the toils of the unfortunates of the opposite sex.

W. C. Foster of Flagstaff has been appointed consul to Linidad W. I. He will make a first class representative for the United States in any land. He is at present a member of the territorial board of equalization.

THE gang is in the soup and flounders around in a most ridiculous manner, befouling its nest with a mixture of printer's ink and poor grammar. Its Willcox organ grinder is out of luck to be compelled to start out under such unfavorable ausmees.

THE N. M. & A. railroad is not favorable to the removal of the county seat away from Tombstone The d y is not far distant when Deming and Fairbank will be connected by rail, and Tombstone will be the most important station on it.

Banson is to have a Republican paper. It will be so in name as well as spirit. It will advocate Republican principles and not those of renegave ormorrats. The first issue will appear about May Ist. A plant has been purchased in Tombstone to be moved to Benson.

Ir any members of the gang wish to run a paper of their own in Tombthem with a complete outfit without charge. We simply make this offer the spring election. to them to convince the public that there is not sand enough in the whole crowd to back up their jargon in their own town.

Some one suggests that Jo Curby is the Tombstone correspondent of the Willcox Stockman's Tuesday edition. Mr. Curby does not deserve any such treatment. Like the illustrous Breckenridge, he may have his faults, but even his enemies never accused him of being such an arrant coward as to cover his identity behind the clock of an assumed name.

A NOTICE signed by James Reilly and G. W. Bryan appears in the Stockman, in which all persons having claims against the county are requested to file the same with A. Wentworth. The great circulation of the cow paper can best be judged from the fact that but one bill has been filed to date, and that was by James Reilly for \$280 for services claimed to have been rendered the county as assistant district attorney,

The complaint of James Reilly in is published in the Tuesday edition of the prices paid. the Willeox Stockman, yel pt the "Sulphur Valley News," as a continned -tory. It is headed "A Bit of History," but is only a bit of buncomb to Bisbee teday, to consult with the that was knocked out of court by Judge Sloan on Monday last. The PRO-PECTOR, it will be remembered, predicted that it would not stand twenty four hours in any court, and it did not hold together half that time. The gang is hard up for a manunition when it advertises its defunct complaints on file in the district court as arguments.
